'Sisu Diriya Rangana' Social Reconciliation and Harmony Through Dance and Drama Performances

The National Program of Enhancing knowledge and virtues: Student Empowerment (Nena Guna Weduma: Sisu Diriya) has given its beneficiary youth the opportunity to showcase their talents to a diverse audience, a prospect that was hitherto barred due to the three-decade conflict. The program was significant in terms of integration in that it provided a widely recognized platform for students who belong in the ethnic minorities to perform their talents. The interaction this program enabled was instrumental in fostering a sense of fraternity among different ethnic and religious groups.

In all national programs (2006-2014) have given opportunity to perform cultural diversity with own ethnic identity by dance and drama performances. These cultural performances marked the dawn of a new era in Sri Lanka defined by hope and peace. Cultural identity was given a prominent place to emphasize the notion of 'Unity in Diversity'.

In every year a special program has organized for spread the glory of harmony and unity among the different ethnicities by cultural heredity of art. Those special programs are annual anniversary programs, New year festivals, World children's day, 'Dayata Kirula' National Development Exhibition and so on.
